Nowy Styl Group's publications. All rights reserved. Brands and trademarks used herein are the property of Nowy Styl Group. Finding a trustworthy business partner with whom you can grow can be a difficult task. Especially in terms of interior design, office furniture, conferences, hotels, canteens, cafés and stadiums. We equip offices and public spaces with a focus on the people who will use them - we think about their needs and expectations.

WE HAVE:

- Vast experience
- Wide range of products designed for all spaces
- Ergonomic and functional solutions
- "Tailor-made" manufacturing processes
- Production in Europe
- Numerous realised projects and references
- KNOW-HOW

Having realised hundreds of projects for small companies and huge corporations, we can proudly say that we know how a well designed office space should be arranged. This is a matter of knowledge and an idea that is adjusted to the space and the development plans of the customer.

WE HAVE OUR KNOW-HOW:

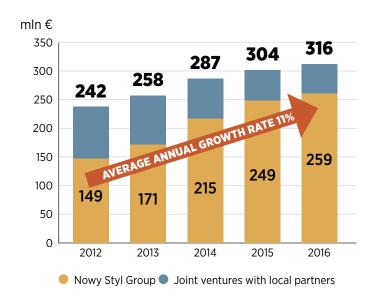

- We know how to design and create functional office spaces
- We know how to analyse the needs of companies and their employees
- > We are able to create an offer adjusted to our customers' needs
- Thanks to our extensive portfolio we can create different offers, from the most economically advantageous one to the most ergonomically advanced one

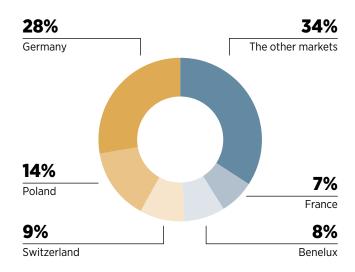

We are a privately owned company and have been present in the market since 1992. With 25 years' experience we are able to deliver products to over 100 countries around the world. 86% of our revenue comes from foreign markets, mainly Western Europe.

We operate closely with our customers through a global sales network and modern production sites. We operate in 17 countries in Europe and the Middle East. We have a developed distribution network, thanks to which we are able to meet our clients' needs across the globe.

Production sites located mainly in Poland, Ukraine, Russia, Turkey, Germany and Switzerland allow us to manufacture high quality products very efficiently. Our furniture solutions can be seen in 28 showrooms located in European cities, such as London, Paris and Prague, as well as in many dealer showrooms around the world. We are also keen on meeting our clients at international fairs like Orgatec, the largest furniture fair in Europe.

Nowy Styl Group has received several awards in the area of product design, manufacturing technology achievement, Top 100 Employers in Poland, as well as social and business activities in the Sub-Carpathian region.

office furniture

manufacturer in Europe*

Furniture is our passion. We have been manufacturing it for 25 years, and we do our utmost to develop our products continually in response to our customers' needs and expectations. We started unassumingly by producing only 3 chairs with 7 employees. With a consistent development strategy we have now become the 3rd biggest office furniture manufacturer in Europe with a renowned brand. We have managed to achieve this in just 25 years. We will not stop there. We are eager to continue meeting even the most demanding of requirements.

Adam Krzanowski CEO & President of the Management Board

SISSION & VALUES

With great passion and respect for the natural environment, we help people arrange offices and other public spaces. We make sure the spaces respond to people's needs concerning health and comfort, increase job satisfaction and efficiency, and fulfill individual requirements regarding ergonomics and aesthetics. We want them to serve people as best they can.

AMBITION

Nowy Styl Group is made up of ambitious, young at heart people who constantly improve their way of working and look for new solutions in order to achieve even better results.

TOLERANCE

We treat the diversity of individuals in our organization and surroundings as wealth. We embrace it with respect, we strive for mutual understanding.

HUMILITY

Appreciating other companies' experience and knowledge, we constantly learn and improve our qualifications. We are able to admit to our mistakes and draw conclusions from them.

At the same time, we are proud of what we have already achieved.

HONESTY

We are of the opinion that ethical standards and decency are equally binding both in business and in private life. That's why we treat our associates and business partners with respect, keep our promises and act transparently.

We KNOW HOW to #MakeYourSpace

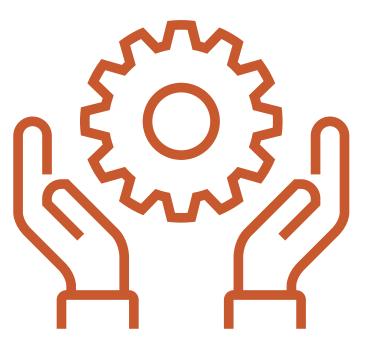

FOR US, AN OFFICE IS A PLACE WHERE PEOPLE REALISE THEIR BUSINESS PROCESSES

The comprehensive arrangement of a well designed office involves an optimal combination of three elements – it concentrates on people and the processes they realise in their place of work, which allows for increasing a company's efficiency. Choose the aspect you consider the most important and want to start your project with.

PEOPLE

An office is a place where people work; people are its main users. A well designed office motivates people to work and increases their job commitment.

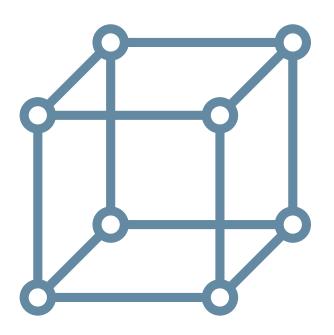

PROCESS

People in every organisation undertake different tasks and realise diverse business processes. A functionally arranged office improves the efficiency of both.

PLACE

Surroundings influence people and their behaviour. An optimally designed office space inspires people, organises their work, provides support in performing everyday duties and helps build a company's image.

MOTIVATION

FOR CHANGES IN THE OFFICE SPACE:

DEVELOPMENT OF THE ORGANISATION

- Increase in the number of employees
- Mergers and acquisitions

EXTERNAL IMAGE BUILDING

- Attracting customers
- Attracting talents

CHANGE OF THE LOCATION

- Termination of the lease agreement
- Construction of an own office building

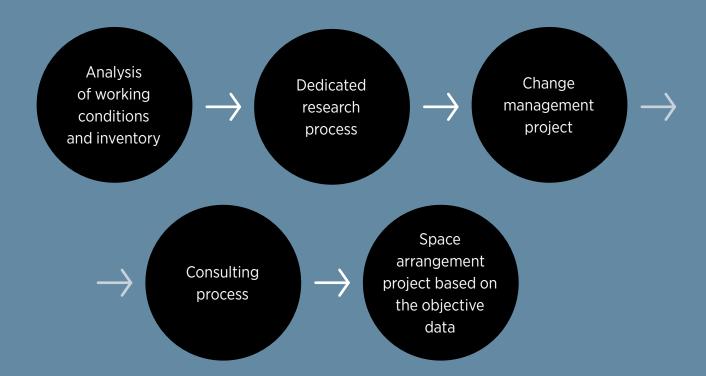

INCREASE IN THE PROFITABILITY OF THE OFFICE SPACE

- Cost reduction
- Effective use of space

WORKPLACE OPTIMISATION STRATEGY

The Workplace Research & Consulting Department consists of consultants, researchers, analysts and architects who design and conduct a "tailor-made" research process, which is based on their own innovative office space research methodology and literature. So far, dedicated research processes have been conducted for over 5,000 employees.

A perfectly tailored space arrangement project is created on the basis of the collected objective data, including needs of the organisation and its employees, as well as a new style of management and a consulting process.

BENEFITS:

- Increase in employees' comfort and job satisfaction
- Improvement in communication
- Attracting talented employees
- Attractive image of the employer
- Cost and space optimalisation
- Higher profitability of the office space
- Effective use of the office space

WEACT GLOBALLY

We supply our products and services worldwide. We have branches in 17 countries. We meet with our clients on 5 continents and thanks to our extensive distribution network we have already delivered our furniture to over 100 countries around the world.

ENVIRONMENTALLY RESPONSIBLE

To us, success means increasing our responsibility toward the environment we are active in. We are all part of a system for which we are all responsible.

We purify 99% of the emitted gases.

We purify 99% of the waste we produce.

We use wood waste to produce thermal energy.

We recycle plastic to make components of our chairs.

We use EU Flower certified fabrics and processed materials.

We promote environmentally friendly activities among our employees.

We cooperate with Magura National Park and join in its efforts for education.

Our environmental policy is in accordance with ISO 14001.

We are economical with paper during our office work.

Sustainable Development Report 2014-2015

OUR CSR CODE

The activities concerning CSR (Corporate Social Responsibility) are an integral part of our company's policy. To manage them in a perfect way, we initiated social reporting. We are extremely proud of the fact that our company was the first one in the furniture industry to compile the Sustainable Development Report in accordance with the Global Reporting Initiative G4 guidelines.

The "CSR Code 2014–2015" report presents indicators chosen according to the expectations of our customers, employees and suppliers, the competitor analysis and Nowy Styl Group's policy. The report has been reviewed by an independent expert auditor (Deloitte Advisory Sp. z o.o.).

Nowy Styl Group has its own R&D Centre and a modern, largely digitally controlled machine park for wood, metal and synthetic materials processing. This is how nearly all the components necessary for the production of chairs come into being in partner companies belonging to the organisation.

In all of the Nowy Styl Group's plants production takes place in accordance with ISO 9001:2008 Quality Management System, ISO 14001:2004 **Environmental Management System and OHSAS** 18001 Occupational Health and Safety Management System. Our products are tested in terms of non-flammability. Fabrics with Permablock3 and Silverguard® are available.

POSSIBILITIES

We value the individual needs of our customers, so when working on quality we try to optimise costs. We achieve that goal thanks to our experience, innovative solutions and continuous development. We strive to set standards in quality by improving things that are good, to make them even better.

€ 28 MLN

Value of the investment: € 28 MLN. Partial funding from the European Regional Development Fund: € 8 MLN.

modern and globally innovative production lines

24,000 m² of a floor area

Our development potential is confirmed by the investment project we have carried out in Poland – construction of one of the most innovative office furniture factories in Europe, co-financed by the EU. In 2015, we successfully completed the project carried out as part of Operational Programme Innovative Economy 2007–2013 under the name: *Innovative Technologies in Furniture Industry – Construction of a Modern Production Plant at Nowy Styl Sp. z o.o. and Introduction of Innovative Products to the European Market.*

NOWY STYL GROUP®

HEALTH & COMFORT

Furnishing an office is no longer an insignificant job that requires no professional knowledge. Scientific research clearly relates the efficiency of work to quality of a workplace. User-friendly and ergonomic workspace is mentioned as one of the basic elements of job satisfaction, which in turn affects the quality of work. Because we care about the health of all our products' users, the Nowy Styl Group's furniture and seating systems are designed with health and ergonomics in mind from the first step.

Great examples of highly ergonomic solutions are the patented GLIDE-TEC and DUO BACK mechanisms. They have been designed according to the latest scientific findings and allow the seated person to move freely while working. Their backrest adapts to the seated person's back during every movement and supports it in any position.

BETTER SITTING

BETTER RELAXING

DESIGN

We cooperate with the best designers from all over the world:

Ray Carter, WertelOberfell, Andreas Krob, Jens Korte, Martin Ballendat, Mac Stopa, Bernd Crabus/Studio Crabus, Daniel Figueroa, Claudio Bellini, Oscar Buffon, Vincent van der Horst, Krijn Hamelink, Armin Sander, Hilary Birkbeck – we are proud to be able to name just some of them.

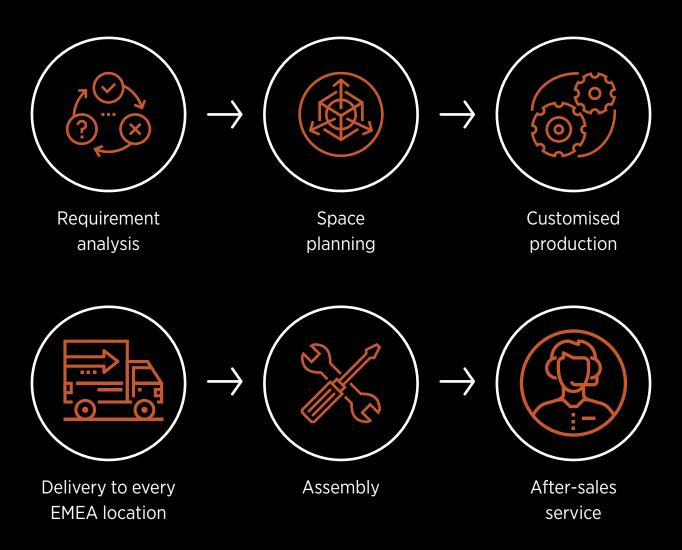

The excellent design of our products has been recognised and rewarded in many design contests.

Nowy Styl Group's designers llisten to our customers first of all. They follow design trends and employ proven ergonomic solutions to create furniture perfectly suited to the principles of modern interior design, whether for a home interior or an office space.

Delivering high quality products is not the only thing we can do for you. We offer professional project management and can support projects at every stage. We are able to run "tailor-made" projects and optimise our customers' costs by smart planning, as well as by taking a holistic approach to every project.

BRANDS

Our broad product portfolio enables us to supply best solutions to a large number of markets. Nowy Styl Group has a wide product portfolio extending to several furniture ranges, a great number of ergonomic chairs, classic and modern lounge seating systems, as well as products for various areas of business.

WORKSPACE Nowy Styl Group | Company Profile

Office design requires an overall concept and specific knowledge of ergonomics and interior design, and therefore Nowy Styl Group's working solutions are designed by professionals and developed as systems. They include not only desks but also accessories, as well as cable and storage solutions.

Every executive office is unique. Increasingly, such offices are becoming versatile working environments where meetings or larger presentations are held. Thanks to our solutions, the executive office can successfully fulfil varied functions of different office parts.

Flexibility is an asset and a necessity in any modern business office. Multifunctional interiors that provide, as required, the function of a conference room, lecture hall or cafeteria are not fictional any more. Nowy Styl Group offers a choice of intelligent solutions, including our mobile and/or folding chairs and tables.

These days a reception desk has to fulfil a number of functions. It is not just the face of a company and a meeting area, but also a working zone in which plenty of different issues are dealt with. To face all those tasks well-thought-out solutions must be in place, so it is particularly important to have a well designed reception area. Nowy Styl Group's reception solutions respond to those needs.

The Group's lounge seating solutions were created, keeping in mind modern offices and public spaces, but they are also perfect when arranging a place for fruitful, informal meetings over a cup of coffee. It is easier to relax in a peaceful and private environment. We also offer solutions that help create a relaxing atmosphere.

Creating a particular atmosphere in your café or food court is very important and furniture plays an essential role in carrying out this demanding task. Therefore, it is necessary to choose your café chairs carefully.

All kinds of lecture halls, conference buildings and training venues can be equipped with the Group's seats. Thanks to the application of a number of functional solutions, our auditorium chairs have won acclaim from their users and are considered an excellent solution for conference halls and lecture theatres.

Emotions often run high at sporting events. Nowy Styl Group's products stand up well for such events thanks to solutions that are comfortable, but also resistant to mechanical damage and all weather conditions, meeting all requirements.
