Dedicated colour concept

Designers

Basically everything can become our source of inspiration, be it contemporary architecture, art, engineering, nature, consumer electronics, lighting, furniture, food or even music...

Sometimes it is the overall shape, sometimes it is the surface or a small detail that makes the project special and interesting.

Play&Work with Red Dot Award 2016

In a contemporary office people change their working styles smoothly. Play&Work ensures such office arrangement which gives employees a chance to choose the place where they want to perform their everyday duties. Its modularity lets you save space. The unique design and great functionality support your employees' creativity. The wide range of configuration options allows you to create workstations perfectly adjusted to particular tasks.

Comprehensive functionality and unique design of Play&Work furniture system were awarded the Red Dot Design Award in 2016.

winner office design

Design

The ladder-shaped panel is the most distinctive element of the system design - the designers have been inspired by balcony balustrades, e.g. those at the Bauhaus building.

Design

The U-shaped leg of a rounded profile with an equal diameter over the entire length makes an excellent detail. The Walter Gropius' chairs from the early twentieth century represent this inspiration.

Contemporary office

Functionality right from the start

PLAY
&WORK

Functionality right from the start

In a tidy and organised environment every task seems to be much more pleasant. A functional office has a huge influence on employees' well-being.

The most problematic elements of many offices are... common bags or women's handbags. **Because everyone wants to have their personal items within reach, Play&Work ensures a perfect solution.**

Within reach

PLAY
& WORK

Within reach

It's no use wasting your time looking for necessary documents or other materials. Thanks to the functional accessories of the Play&Work system, **everything is within reach and everyday work becomes more effective.**

Effective work

PLAY
&WORK

Perfect match

Office space optimisation is an important aspect of a well thought-out office arrangement. Popular elements of a modern space are hot desk workstations. They allow for a shift work system by ensuring quick and easy desk adjustment to physical characteristics of a user. Quality of work does not have to be dependent on a permanent workstation. One desk can serve a few people and provide them with the same level of comfort. **Desks with a T-type base with height adjustment allow for adjusting a workstation to a particular user in an easy and comfortable way.**

Effective work

A functional office has a great impact on employees' efficiency. An optimally arranged workplace supports them in carrying out their everyday tasks.

The Play&Work system offers a wide range of comfortable and ergonomic solutions which can increase employees' comfort at work.

Creative reflections

Creative reflections

Changing your working position, stepping away from your workplace or going for a short walk in an office can have a positive influence on your ability to concentrate. **A low cabinet with an upholstered pad acts like a bench allowing for creative reflections in an office.**

Constructive discussions

Constructive discussions

In a contemporary office spontaneous meetings are the most common way of working.

The workbench workstations of the Play&Work system are equipped with a desk extension which provides enough space for holding unplanned consultations. **A very convenient accessory is the free-standing organiser where you can keep all the necessary materials and which you can take with you wherever you go.**

Privacy in a team

A contemporary office consists of many different zones that ensure a smooth transition from silent work that requires concentration to teamwork where a team's support and common reflection perform key roles. Noise and the number of surrounding objects have a huge influence on the quality of people's work – the Play&Work freestanding cabinets divide a space without the necessity of generating other permanent divisions. **The freestanding cabinets ensure privacy and easy contact with the rest of a team at the same time. They are also an ideal place for storing materials.**

Important consultations

PLAY
&WORK

Important consultations

The role of a team manager is unique. Those who hold this position are outstanding and have strong personalities. Their workstations must highlight their importance in a company. The Play&Work system offers managerial solutions which combine attractive design with great functionality.

Inspiring conversations

Inspiring conversations

Informal meetings positively affect the atmosphere in an office and relationships between team members. A quick exchange of ideas or a short conversation can very often help employees find the best solutions. The high Play&Work table joined to a cabinet creates an ideal place for holding this kind of meetings.

Concentration on a task

Concentration on a task

Regardless of the type of professional duties, every employee sometimes needs to work in the quiet. There are also some jobs based on individual work. When designing an office, it is necessary to plan the space properly so that it will perform various functions and meet all the employees' needs.

The Play&Work system offers a wide range of solutions supporting this working style.

Concentration on a task

It is impossible to rearrange the whole office area when transferring from one task to another. However, thanks to the thoughtful Play&Work system solutions we can easily configure individual workstation.

Free-standing organiser with upholstered pad acts as a portable panel.

Working comfort

PLAY
&WORK

Working comfort

The process of arranging office spaces aims at creating places where people can work effectively and feel comfortable.

Using appropriate colours and natural materials (wood, linoleum) are the key aspects in designing a perfect home design office.

Highly ergonomic office
furniture can increase
employees' productivity by up to
15%

Workstations designed for teamwork

Double-sided cabinets joined to desks

- > The openwork panel facilitates communication
- > A bigger working surface: the desktop is joined to a shelf in a cabinet
- > Office space optimisation thanks to the integrated workstations

Workstations designed for teamwork

Double-sided cabinets joined to desks

- > The openwork panel facilitates communication
- > A bigger working surface: the desktop is joined to a shelf in a cabinet
- > Office space optimisation thanks to the integrated workstations

Workstations designed for teamwork

Workbench

- > A leg placed a bit further away from the edge of the top increases the users' comfort
- > A desk extension provides enough space for quick meetings
- > Sliding top: wiring in one place

Workstations designed for teamwork

Workbench for integration with a cabinet

- > A workbench workstation is directly integrated with cabinets with the use of a special connecting module; there is no need to assemble a base
- > Economy of space thanks to functional extensions and a middle leg which is recessed away from the edge of the top
- > Workstation personalisation is ensured by a wide range of accessories and the cabinets integrated with a workstation
- > Easy assembly of additional modules allows for creating a workstation adjusted to the size of an office space

Workstations designed for individual work

One-sided cabinets joined to a desk

- > High cabinets act like acoustic and visual barriers
- > The build-in metal panel allows for fixing different accessories
- > Integrated workstations mean easier space arrangement

Workstations designed for individual work

Desks with a T-type base

- > A stable metal frame without height adjustment or with three types of height adjustment to choose from: manual, electric or via crank
- > Height adjustable tops ensure a desk can be easily adjusted to any user; they are also perfect for hot desking
- > The wide range of colours and finishes facilitates the arrangement process: desktops are made of melamine, laminate or soft linoleum
- > The possibility to assemble many different accessories that aid in organising a workstation

Workstations designed for individual work

Freestanding desk

- > Patented constructional solutions
- > The possibility of equipping a workstation with a wide range of accessories facilitating its organisation
- > Eco-friendly solutions: available desktops made of cellular board

Managerial office

Desk joined to a sideboard

- > A functionally organised sideboard interior
- > Unique design: the plywood structure is visible on the desktop
- > Innovative finishes: the desktop is coated with linoleum

Sideboards

- > Additional space for storing necessary materials thanks to the use of practical double-sided cabinets
- > The cabinets are equipped with sliding door, which ensures easy access to documents
- > Drawers are fitted with a soft closing system and a stop control plus function

Informal meetings zones

High table joined to a cabinet

- > Spontaneous meetings held in a standing position are shorter and more effective
- > A change of working position has a positive impact on employees' health
- > The idea of integrating a cabinet with a table helps to increase the working surface and storage area

Supplementary furniture

One-sided freestanding cabinets

- > Quick and easy access to the materials stored thanks to the use of sliding door and open shelves
- > A built-in metal panel that allows for fixing accessories
- > The wide range of colours and the possibility to combine them ensure an easy space arrangement

Supplementary furniture

Double-sided freestanding cabinets

- > Functional and effective space division thanks to the built-in metal panels
- > Quick and easy access to the materials stored thanks to the use of sliding door and open shelves
- > A well thought-out combination of open shelves and the cabinets equipped with sliding door and a metal ladder ensures a practical arrangement of materials

Supplementary furniture

Big Orga Tower

- > A compact solution dedicated to freestanding desks
- > The build-in metal panel allows for fixing different accessories
- > A handy container which doesn't consume free space under the desktop

Supplementary furniture

Low cabinets with a seat

- > Additional storage area combined with a place for holding spontaneous, informal meetings
- > As double-sided versions, the cabinets are perfect space dividers that help section off particular office zones
- > Comfortable side backrests or a version without backrests that ensures a bigger sitting area

Upholstered panels

- > The possibility of sticking in drawing pins and attaching notes
- > Panels fully upholstered with the Blazer fabric (100% wool)
- > Panels are fixed directly to the desk frame

Panels

Metal panels

- > The most distinctive element of the system design
- > Panels can be easily assembled and disassembled
- > Panels are fixed to a desk by means of a grub screw (the desktop surface remains untouched)

Accessories

- > Very distinctive elements of the system design
- > Tool-free assembly - accessories are hung on a panel upholstered pads are fastened to it using a zip
- > Decorative and functional boxes for keeping wires
- > A leather desktop pad increases work comfort
- > Three lengths of upholstered vertical wire trunking ensure it can be easily fixed to any desk type

Details

The background of the entire image is a high-angle, isometric illustration of a modern office space. The office is furnished with various types of desks, including long communal ones and smaller individual workstations. Ergonomic office chairs are placed at the desks. Several people are depicted in the space: some are seated at desks working on computers, while others are standing and talking in a more open area. The overall color palette is a monochromatic pink, giving the image a clean, contemporary feel.
